⚠ WARNINGS

To prevent slippage of ①④ Carpet Floor Mat, be sure to follow the instructions below.

- Properly secure the Carpet Floor Mats using the Clip on the floor.
- Never place the Carpet Floor Mats on top of or underneath another floor mat.
- Failure to follow the above may slide the Carpet Floor Mats forward and disturb driver's ability to use vehicle pedals properly.

⚠ CAUTIONS UPON INSTALLATION

These cautions mentioned hereunder are very important to install this product safely, to prevent damage before it occurs.

- Read this [INSTALLATION MANUAL] thoroughly, before you install the components.
- Preserve this [INSTALLATION MANUAL] at a safe place ready for your reference at needs, after reading.
- Do not install or use this instrument in any other ways except usage in MAZDA vehicle mentioned in front page.
- Check to see if all the parts required are provided before starting installation.
- Be sure to make the vehicle parked at flat place before installing this product.
- Do not use any parts other than those listed in the [INSTALLATION MANUAL]. Otherwise, this product will be damaged.

We cannot hold ourselves responsible for failures and accidents resulting from any misunderstanding of these cautions.

INSTALLATION

Installation of Clips for driver's seat

Fig.-1 Clip installation square hole

Clip installation square hole

1. Find slit on the carpet of driver's seat as shown in Fig.1. Next, Cut the slit, and turn up carpet and expose clip installation square holes.

When cutting the slits be careful not to damage the behind floor panel.
